SPECIALIZING IN
RECENT INTRODUCTIONS

J. R. & C. T. LARUS
19 WOODSIDE CIRCLE
HARTFORD 5, CONN.

PLEASE READ BEFORE ORDERING

Again we have selected for listing the varieties which we consider the cream of the newer ones we grew last summer. Our 1948 catalog contains about 150 varieties, including over 110 of the best recent introductions — we suspect the largest and most complete list available in any current catalog. As in previous years, we have removed varieties when better ones become available, for we feel that no good purpose is served by continuing to list varieties when they are supplanted by superior and very similar ones.

While tastes are bound to differ, there are certain outstanding varieties which in our opinion are worthy of special mention as being at the very top of the gladiolus world. The names of these are undelined. There are several brand-new varieties which probably belong in this select class, although our experience with them is too limited to make us willing this year to assign them this definite top rating; these are indicated by an asterisk (*) placed after the name. The color class of each variety is given in parenthesis. In general, the NAGC and NEGS classifications have been followed, although a few apparent inconsistencies have been adjusted. Descriptions and measurements are taken from our own records of field performance.

This year we are offering unbloomed seedlings of the following crosses made in 1945 (seed parent given first):

Elizabeth the Queen x Miss Wisconsin	Lady Jane x Rima
King Tan x Drum Major	Purple Supreme x Burma
Vulcan x King Click	

The bulbs are fairly evenly divided in size between 4's, 5's, and 6's. Price for 10 bulbs is \$1, not over 10 bulbs of a cross to a customer (give alternate choice, please). We also offer mixed unbloomed seedlings (assorted sizes, 4's and 5's) from crosses where our supply is too small to list separately; these are 10 for 80 cents.

Previous heavy demands for similar bulbs and our desire to retain some for our own growing force us to make an **over-all limit of 20 seedling bulbs to a customer.**

We are also offering seeds from selected crosses made this past summer. If you haven't grown seeds and seedlings you have missed what is probably the most fascinating aspect of our hobby. Packets of 20 seeds of any of the crosses below are 50 cents each. We suggest that you list one cross that can be used as a substitute for each two packets on your order.

A. L. Stephen x Alice Ayer	King Click x Dieppe
Arethusa x Connecticut Yankee	Lady Jane x Christine
Ballad x Athlone	Lady Jane x Golden State
Blue Lagoon x Grand Opening	Larime x Daisy Mae
Daisy Mae x Spotlight	Madeleine Brown x Spotlight
Goal x Royal Windsor	Martha Deane x Queen Charlotte
Golden State x Daisy Mae	Myrna Fay x Peggy
Golden State x Oriental Pearl	Mystery x W. P. 40
Golden State x Spotlight	Picardy x Buena Vista
Greta Garbo x 44W-6 (fine pink seedling)	Purple Supreme x Grand Opening
Helen of Troy x Bengasi	Tunia's Mahomet x Rita Mae
Victory Queen x Daisy Mae	

Mixed seeds are also available in case you want the same quality, but with greater variety — 25 seeds for 50 cents. (Limit 5 packets of mixed seeds to an individual).

Our bulbs are clean and high-crowned, and you will find that we fill orders generously. We never substitute without your permission. Orders will be filled and set aside in the order received. Payment in full will be expected before shipment. We send out orders postpaid the last half of March.

Ten bulbs or bulblets will be sold at 8 times the single price and 100 bulblets at 8 times the rate for 10; 5 at the 10 rate and 25 at the 100 rate. Because our growing space is limited, we do not undertake to supply over 10 bulbs or 100 bulblets of a variety to a customer.

Cash discounts are given for all orders over \$3. On orders from \$3 to \$7, subtract 5% discount; from \$7 to \$15, subtract 10%; from \$15 to \$25, subtract 15%, and over \$25, subtract 20%. The variety Siboney is not subject to discount. If you prefer not to deduct your discount, we will make it up in extras that will please you.

Indications are that the demand for certain varieties will be such that our supply in them may not last out the selling season. We therefore suggest that you send in your order early. While anything we still have available is always at your service, March 15 is about the last date we are in good position to accept orders.

1948 Introduction

SIBONEY

We are pleased to be one of the few growers privileged to introduce SIBONEY, often called Allen's Lavender. This seedling has been exhibited at several shows as seedling 0-451. Few varieties have ever been introduced with such a fine show record.

SIBONEY is a clear medium lavender self blending a little deeper in the throat. Florets are heavily ruffled and closely attached. Grows 50" to 66" tall with a 25" to 30" flowerhead carrying 20 to 24 buds. Opens 8-10 florets in perfect placement. Will show in class 566 as florets are 6" to 7". The above is taken from the originator's description. We have grown SIBONEY but did not have large bulbs; however we have seen a number of fine spikes. Have yet to see a streaked floret or a crooked spike. The foliage is husky and deep in color. SIBONEY appears to be healthy and is a strong propagator. Blooms in about 90 days.

Spikes have been exhibited at 7 shows with the following results:

6 First Prizes

2 Sectional Championships	2 Three Spike Grand Championships
1 Divisional Championship	2 Grand Champion Seedling
1 Largest Floret in Show	1 American Home Achievement Award
1 Second Day Grand Champion	2 Awards of Merit (scored 87 and 89)

The spike of Siboney shown on the front of the catalog received an A rating (Very Superior) at the 1947 International Show — the highest rating given to any 500 size seedling. Picture was taken first day, before spike was fully open.

The above record is very remarkable considering the small number of large bulbs that have been available. Practically every spike the originator has bloomed has received a prize somewhere — including the original bloom in 1945. We have been very favorably impressed with SIBONEY and highly recommend it. Stock is still quite scarce but the introductory price has been set as low as possible.

Any size bulb \$5.00. Bulblets sold only in conjunction with bulbs. 1 bulb and 10 bulblets for \$10.00.
